Customer Instruction Card for the Mini Jars														
How Customer Uses It: "How to use your Mini Jars" + dosage chart + cleaning steps. Pick cream jar size Pick 1ml oil droppers – all your top designer-inspired scents Add drops to jar, stir, label it, done Upsell: "Create Your Signature Scent" or "Match Your Perfume"														
HOW TO USE YOUR Scent Lab MINI JARS Create your own signature cream – safely & easily														
STEP 1:	SCOOP YOUR BASE													
Using the spatula, scoop unscented cream from your big jar into a clean 2ml or 5ml mini jar. Fill only $\frac{3}{4}$ of the mini jar – you need room to stir.														
STEP 2:	ADD YOUR OILS													
⚠ SAFETY FIRST – DON'T OVER-DOSE Jar Size – Max Please note 1ml dropper = $\pm$ 20 drops. Total Drops Why 2ml mini 1-2 drops MAX Skin-safe IFRA limit for leave-on cream MAX Stronger scent, still safe 5ml mini 3-4 drops														
Cream Jar <table border="1"> <tbody> <tr> <td>5ml</td> <td>3 to 4</td> <td>Drops</td> </tr> <tr> <td>50ml</td> <td>15</td> <td>Drops</td> </tr> <tr> <td>125ml</td> <td>35</td> <td>Drops</td> </tr> <tr> <td>250ml</td> <td>70</td> <td>Drops</td> </tr> </tbody> </table>			5ml	3 to 4	Drops	50ml	15	Drops	125ml	35	Drops	250ml	70	Drops
5ml	3 to 4	Drops												
50ml	15	Drops												
125ml	35	Drops												
250ml	70	Drops												
STEP 3:	MIX + TEST													
Stir 20 seconds with spatula until cream looks smooth. Label your mini: "Test 1: Rose + Vanilla" Patch test: Dab tiny amount on inner wrist. Wait 24hrs. No irritation = good to use.														
STEP 4:	LOVE IT? SCALE IT UP													
Loved your 5ml test blend? Use the same ratio in your big jar Example: If 5ml used = 3 total. For 125ml jar: $\rightarrow$ 5ml 2 drops rose + 1 drop vanilla 125ml $3 \div 5ml = 0.6$ drops per ml 125ml $\times 0.6 = 75$ drops But safety cap is 35 drops, so do 1 drop rose + 1 drop vanilla per 10ml instead When in doubt, use less														
STEP 5:	CLEAN + REUSE													
Wash mini jars with warm soapy water, rinse well, air dry. Any leftover scent can affect your next blend, so clean properly.
